## HOW DOES OUR COLORS DEFINE US?

### **Purple: Heart and Soul**

'Redefine', 'Inspire', 'Uplift'. The three out of five fundamental principles belong to the colour PURPLE. The purple signifies spirituality, wisdom, imagination. It stimulates our innermost self awareness. Enlightens our consciousness and provides wisdom. Encourages 'Compassion' and 'Creativity'... the two of our five 'C's.

### **The combination**

The passion of purple blends with generosity of green, together they balance the logic and emotions. Green serves as the base, a strong foundation as in the nature with green grass rooted on the ground while flourishing high in the immense scope for powerful imagination of purple.

The purple is formed by combining two primary colours: Blue and Red.

The green is formed by combining two primary colours: Blue and Yellow.

Moreover, the contrasting colour combination renders it a colour blind friendly characteristic making it even more inclusive and accessible to diverse audience.

### **Green: Mind and Body**

The alternative shades of GREEN symbolize the other two principles- 'Heal' and 'Nurture'. The green is growth, prosperity and generosity. It feels relaxing and revitalizes our body and mind, balances our emotions and bestows us with hope and health to feel 'Confident', safe & secure because we 'Care' and 'Cheer' for you with rest of the three 'C's. In harmony and absolutely well tuned with nature is the idea.
